NOW READY, Price 10s.

HYDRAULIC AND TIDE TABLES,

TO AID THE CALCULATION OF WATER AND MILL POWER, WATER SUPPLY, DRAINAGE, AND NAVIGABLE RIVERS; WITH SYNOPSIS OF RAIN-FALL IN GREAT BRITAIN.

Together with

THE PROPERTIES AND STRENGTH OF MATERIALS; USEFUL NUMBERS; POWERS, ROOTS; AND LOGARITHMS.

BY NATHANIEL BEARDMORE,

Member of the Institution of Civil Engineers.

The First Edition of this Work was received with much greater favour than the author had at all expected; and the sale was large, for so technical a work. To extend the use of this edition as a hand book for the Engineer, in matters relating to Hydraulics and Hydrodynamics, many new Tables have been constructed, and Tide Tables are inserted at the close of the book, chiefly compiled from the data offered in the Admiralty Tide Tables and from the Nautical Almanac.

The introductory remarks on the use of the Tables, have been amended, and more information is interwoven, chiefly on our English rivers—the drainage areas of the more important of which have been especially computed from the Ordnance Map. In the original remarks on tides and rivers, experience and practice are the great guide; and therefore, to obtain the best data for practical results we have carefully collated all the well-authenticated data within our reach or personal experience, and had them condensed into tabular forms.—Preface to second Edition.

WATERLOW and SONS, Parliament-street, Westminster; Birchin-lane; and London Wall, City;
WEALE, 59, High Holborn; BLACK, Edinburgh; J. and J. THOMSON, Manchester; WEBB and HUNT, Liverpool;
ARMENGAUD, Aîné, Paris.

THREATENED DEMOLITION of the CRYSTAL PALACE.—In consequence of many thousands of persons in the United Kingdom having been unable to obtain a copy of the GREAT EXHIBITION CHART, printed in colours, and presented by the Proprietors of the WEEKLY DISPATCH to their Subscribers and the Public, in the months of January and February last, a REPRINT has been determined upon, to take place on SUNDAY, the 16th of MAY.

The Chart, which has undergone a careful revision, shows by simple diagrams the number of persons that visited the Exhibition daily; the amount of money taken at the various entrances; the quantity of refreshments consumed; the names of the Royal Commissioners; an account of the origin of the Palace, and its dimensions in feet.

In order that every individual in the country may possess this statistical relics of curious and interesting results, to mark the demolition of the building, and to serve as a memento of its existence, the Chart will be delivered GRATIS to every Subscriber and Purchaser of the DISPATCH on the day stated.

*** The DISPATCH is published at Four o'clock every Saturday morning, in time for the first railway trains leaving London, and for the morning mails.

Early orders should be given to all Newsvendors, in Town and Country; or to Mr. B. J. WOOD, No. 139, Fleet-street.

N.B.—The News Agents will have a copy of the Chart with every DISPATCH of May 16th.

WORKS published by ATCHLEY and CO. 106, Great Russell-street, Bedford-square, London, near the British Museum:—

Just published, imp. folio, plates, &c. text, the Fourth Series, 3s.
THE MACHINERY of the NINETEENTH CENTURY, containing BIRCH'S Sash-bar Machine, as used for roof of Exhibition; WILSON'S Paper-cutting Machine; MYERS'S Forging Machine; HOPKINSON and COPAS Double Platten Printing Machine; FAIRBAIRN'S 6-horse power High-pressure Column Engine.

DEMPSEY'S WORKS ON BRIDGES, &c.:—
MALLEABLE IRON BRIDGES: containing,
First Series—

London: published by T. KELLY, Paternoster-row; SIMPKIN and MARSHALL; and may be had of all Booksellers.

Of whom may be had, New Editions, in Quarto, of the following Practical Architectural Works:—

1. PETER NICHOLSON'S PRACTICAL CARPENTRY, JOINERY, and CABINET MAKING, revised by TREDGOLD: being a new and complete System of Lines for the use of Workmen; founded on Geometrical and Mechanical Principles. Ten Parts at 3s., or in boards, 30s., containing upwards of 120 Steel Plates, and numerous Woodcut Diagrams.

2. PETER NICHOLSON'S PRACTICAL MASONRY, BRICKLAYING, and PLASTERING. Revised by TREDGOLD, both plain and ornamental; containing the most complete System of Lines for Stone Cutting, for the use of Workmen; the Preparation of Mortars, Cements, Concrete, to which is added a variety of new designs for Mural Tablets, Tombs, Headstones for Cemeteries, &c. &c.; and a description of the various Materials employed. Ten Parts at 3s., or in boards, 30s., containing upwards of Ninety Steel Plates and numerous Woodcuts.

3. TREDGOLD and NICHOLSON'S Theoretical and Practical Treatise on the FIVE ORDERS of ARCHITECTURE; containing plain and simple Rules for Investigating and Executing them in the purest style; including an Historical description of Gothic Architecture. Illustrated by upwards of One Hundred Steel Engravings, executed by Artists of the first eminence, including numerous Diagrams, &c. Twelve Parts at 3s. 6d., or in boards, 35s.

4. DESIGNS for COTTAGE and VILLA ARCHITECTURE; containing Plans, Elevations, Sections, Perspective Views, and Details, for the Erection of Cottages and Villas. By S. H. BROOKS, Architect. Beautifully engraved on steel. With Directions for Building, and the estimated cost of each Design. Twelve Parts at 3s., or in boards, 30s.

5. DESIGNS for PUBLIC BUILDINGS, consisting of Plans, Elevations, Sections, Perspective Views, and Details of Churches, Chapels, Schools, Almshouses, Town Halls, Markets, and other buildings for public purposes. By S. H. BROOKS, Architect. Beautifully engraved on steel. Ten Parts at 3s., or in boards, 30s.

6. THE HOUSE DECORATOR and PAINTER'S GUIDE; containing a series of Designs for Internal Decorations, with taste, and suited to the various styles of Architecture. By H. W. and A. ARNSWORTH, House Decorators to Her Majesty. Ten Parts, at 3s.; or in boards, 30s.

7. THE HOUSE PAINTER, or DECORATOR'S COMPANION; containing a complete Treatise on the Art of House Painting, Graining, and Marbling; including the Harmony of Colour, the Laws of Harmonious Colouring, the Management of Pigments, Oils, Varnishes, &c. By W. M. HOOPER, Esq. Illustrated by actual Specimens of Hand-brush Graining and Marbling. Ten Parts, at 3s.; or in boards, 30s.

THE ENGINEER'S and MECHANIC'S ENCYCLOPÆDIA, a new and enlarged edition, comprising Practical Illustrations of the Machinery and Processes employed in every description of Manufacture of the British Empire, treated by upwards of 500 Wood Engravings. By LUKE HERBERT, Civil Engineer, &c. The rapid progress of Mechanical Science has developed many of the important facts since the first publication, in 1836, of the Encyclopædia. The inventions and discoveries recently made have engaged the assiduous attention of the Editor, for, as the value of each was tested by experiments, a description was accordingly prepared. By the selection of new articles and care in the revision of old ones, this edition has been systematically enriched; so that it may be received as faithfully expressing the existing state of Engineering and Mechanics, adapted to the wants of Practical Men. In two large volumes, cloth, lettered, price 30s.
